About Enerix

Enerix is a modern engineering, procurement, and sourcing company providing reliable industrial solutions for the energy, oil & gas, infrastructure, and industrial sectors.

The company delivers integrated engineering support, strategic sourcing, technical consultancy, procurement services, and supply solutions tailored to meet the operational and project requirements of clients across various industries.

With a strong focus on quality, efficiency, and technical excellence, Enerix collaborates with international manufacturers, suppliers, and strategic partners to deliver dependable products and services that support industrial growth and project success.

Leveraging global sourcing capabilities and industry expertise, Enerix is committed to providing competitive, reliable, and value-driven solutions while building long-term partnerships based on trust, professionalism, and performance.

Vision & Mission

Vision

To become a leading regional engineering, procurement, and sourcing company recognized for reliability, technical excellence, and innovative industrial solutions across the energy and industrial sectors.

Mission

To deliver high-quality engineering support, strategic procurement, and global sourcing solutions that create value for our clients through professionalism, efficiency, technical expertise, and long-term partnerships.

Key Activities

Enerix operates across the oil & gas, energy, and industrial sectors through a range of specialized activities focused on engineering, procurement, sourcing, consulting, and industrial support services.

Our activities include support for oil & natural gas projects, technical and operational consultancy services, industrial sourcing, and supply of oilfield equipment, materials, and spare parts through a trusted international supplier network.

Enerix is committed to supporting the energy sector with reliable solutions tailored to the operational and project requirements of upstream, downstream, and industrial operations while maintaining a strong focus on quality, efficiency, and technical performance.

Licensed Activities

Oil & Natural Gas Projects

Oil & Natural Gas Exploration Consultancies

Oilfield & Natural Gas Equipment & Spare Parts Trading

Core Values

Integrity

Operating with honesty, transparency, and professionalism.

Reliability

Delivering dependable solutions and consistent performance.

Technical Excellence

Maintaining high standards through expertise and precision.

Quality

Providing solutions that meet international standards.

Commitment

Focused on client satisfaction and long-term success.

Innovation

Applying smart and modern industrial solutions.

Safety

Promoting responsible and safety-focused operations.

Partnership

Building trusted relationships with clients and partners.

Engineering Services

At Enerix, we provide integrated engineering solutions designed to support the successful execution of industrial, energy, and oil & gas projects. Our services include technical consultancy, project coordination, engineering support, technical evaluations, inspection coordination, and engineering documentation assistance.

Driven by technical expertise, precision, and innovation, we are committed to delivering reliable and efficient engineering solutions that meet the highest industry standards while supporting our clients' operational and project objectives.

Procurement Solutions

Enerix delivers strategic procurement solutions tailored to the needs of industrial, energy, and oil & gas projects. Through a strong international supplier network and global sourcing capabilities, we provide reliable access to high-quality equipment, materials, and industrial solutions from trusted manufacturers worldwide.

Our procurement services focus on efficiency, technical compliance, competitive sourcing, and timely delivery, ensuring that clients receive dependable solutions that support operational continuity and project success.

Oil & Gas Support Services

Enerix provides specialized support services for the oil & gas sector, delivering reliable solutions tailored to the operational and technical requirements of industrial facilities, refineries, and energy projects. Our expertise includes engineering support, procurement, sourcing, technical coordination, inspection support, and supply of industrial equipment and materials.

With a strong understanding of industry standards and project demands, Enerix is committed to supporting clients with efficient, high-quality, and performance-driven solutions that contribute to safe and successful operations.

Industrial & Technical Solutions

Enerix provides integrated industrial and technical solutions focused on supporting oil & gas, energy, and industrial projects. Our capabilities include technical support, engineering assistance, industrial equipment supply, inspection coordination, and project support services tailored to meet the operational and technical demands of the energy sector.

By combining industry expertise with a strong understanding of project requirements, Enerix delivers reliable, efficient, and high-quality solutions that support safe operations, operational continuity, and long-term project success.

We are committed to delivering value-driven solutions that enhance performance, improve efficiency, and support the successful execution of critical industrial and energy projects.

Enerix supports oil & gas and energy projects through specialized industrial and technical solutions designed to meet complex operational and project requirements. We provide reliable support across various project stages, including technical coordination, industrial supply solutions, engineering support, and project-related services for industrial facilities and energy operations.

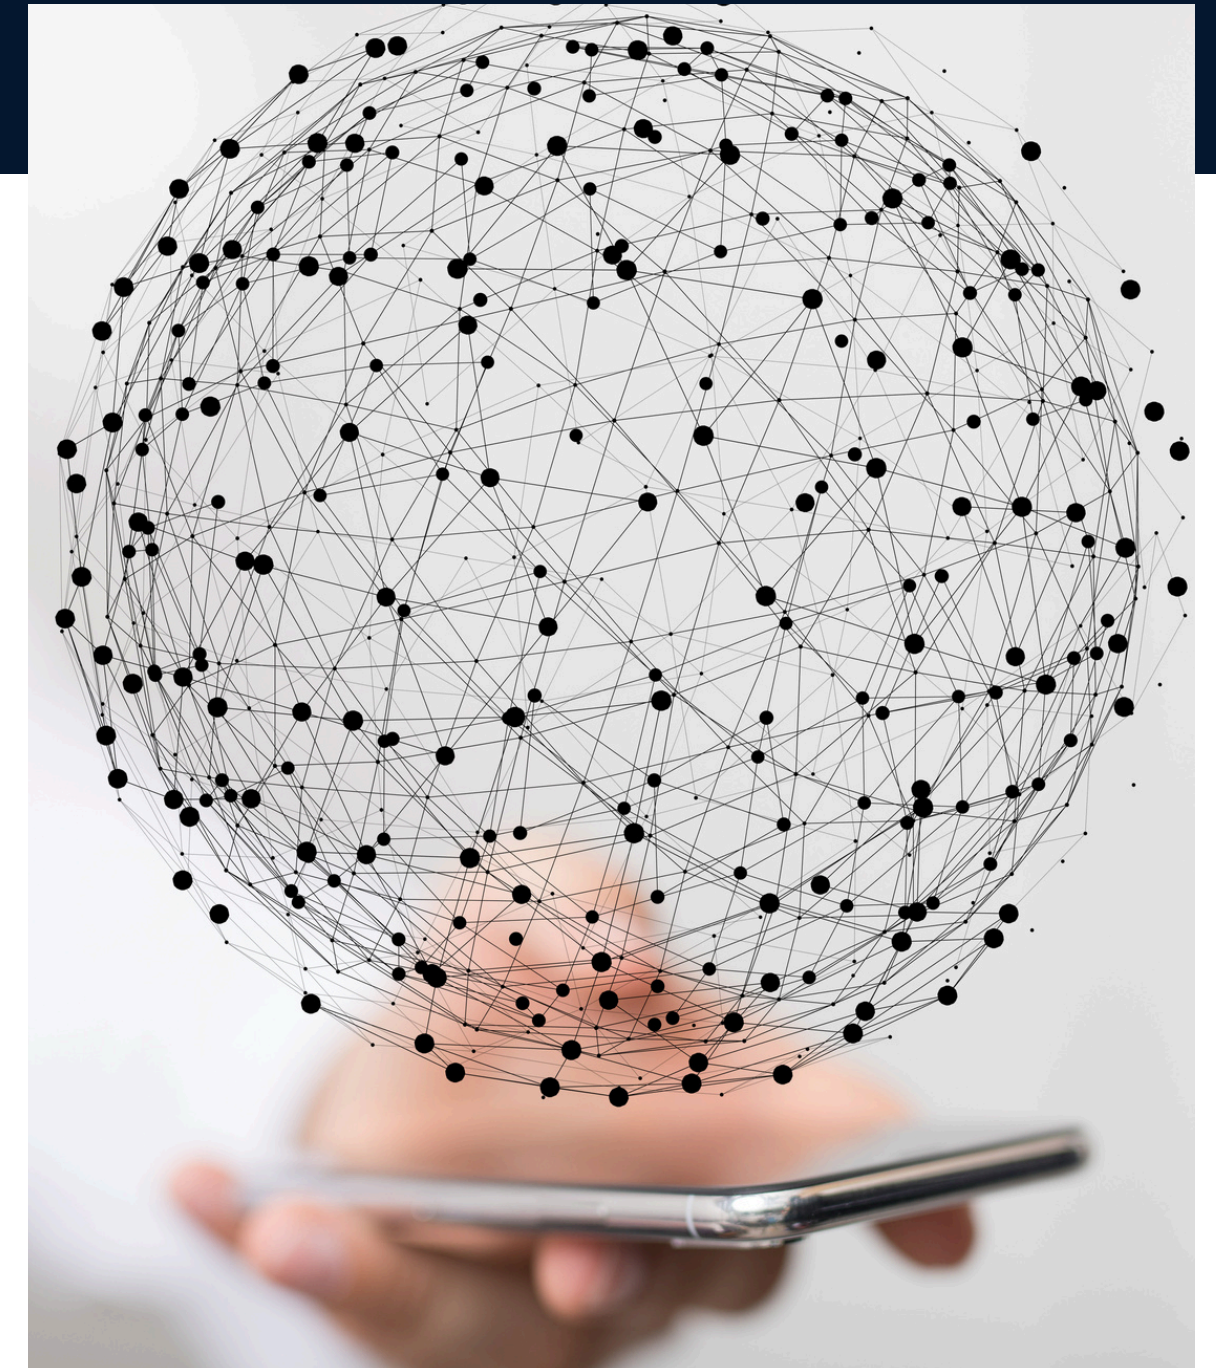

With a focus on efficiency, reliability, and technical performance, Enerix works closely with clients and international partners to deliver practical and dependable solutions that contribute to the successful execution of industrial and energy projects.

Global Sourcing Network

Enerix operates through a strong global sourcing network that connects clients with trusted international manufacturers, suppliers, and industrial partners across key global markets. Through strategic sourcing and supplier coordination, we provide reliable access to high-quality industrial equipment, materials, and technical solutions for oil & gas, energy, and industrial projects.

Our international sourcing capabilities enable us to deliver competitive solutions, efficient procurement support, and dependable supply chain coordination while ensuring quality, technical compliance, and timely project support.

In addition to our international network, Enerix maintains strong communication and business relationships with companies across the Middle East, enabling effective regional coordination, faster response times, and reliable support for regional industrial and energy projects.

Procurement of Oil & Gas Equipment

Enerix provides procurement and sourcing solutions for oil & gas equipment, industrial materials, and technical components through a trusted global supplier network. We focus on delivering reliable, technically compliant, and cost-effective solutions that meet project and operational requirements.

Drilling Support Services

Enerix supports drilling operations by providing industrial supply solutions, technical coordination, and project support services tailored to the operational needs of oil & gas drilling activities and field operations.

Construction & Civil Works

Enerix supports construction and civil work projects through reliable technical coordination, project support services, and supply solutions tailored to industrial and infrastructure developments. We are committed to supporting projects with quality, efficiency, and professional execution.

Non-Destructive Testing (NDT)

Enerix supports construction and civil work projects through reliable technical coordination, project support services, and supply solutions tailored to industrial and infrastructure developments. We are committed to supporting projects with quality, efficiency, and professional execution.

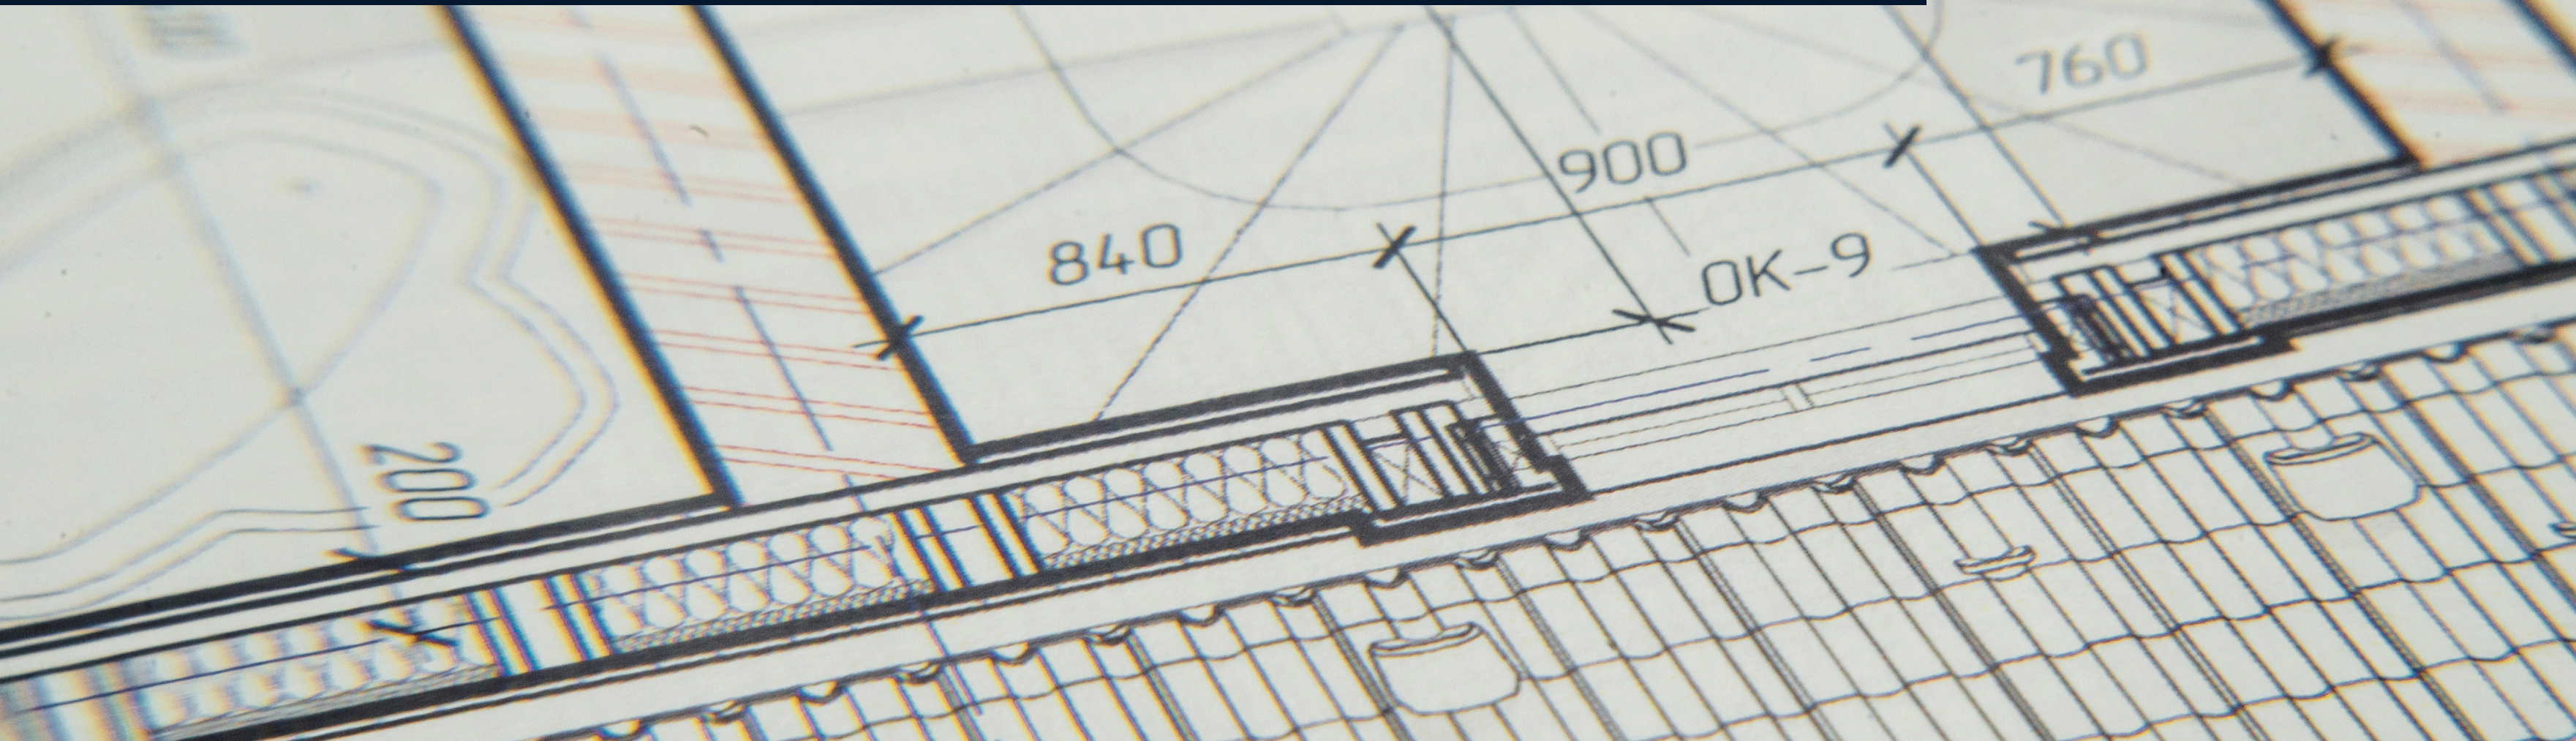

Health, Safety & Environment (HSE)

Enerix promotes a strong commitment to Health, Safety & Environment (HSE) standards across all operations and project activities. We believe that safety, environmental responsibility, and operational discipline are essential to successful industrial and energy projects.

Engineering & Technical Drawings

Enerix promotes a strong commitment to Health, Safety & Environment (HSE) standards across all operations and project activities. We believe that safety, environmental responsibility, and operational discipline are essential to successful industrial and energy projects.

Consulting Services

Enerix provides consulting and technical advisory services focused on supporting EPC, industrial, energy, and oil & gas projects through practical, reliable, and solution-oriented approaches. Our consulting services are designed to assist clients in improving project efficiency, operational performance, technical planning, procurement strategies, and project coordination.

With a strong understanding of engineering, procurement, sourcing, and industrial operations, Enerix supports clients throughout different project phases by delivering professional guidance, technical insight, and strategic support tailored to project-specific requirements.

We are committed to building long-term partnerships by providing value-driven consulting services that contribute to successful project execution, operational reliability, and sustainable industrial growth.

Why Enerix

At Enerix, we combine engineering expertise, strategic procurement, and global sourcing capabilities to deliver reliable solutions for oil & gas, energy, and industrial projects. Our commitment to quality, technical excellence, and operational efficiency allows us to support clients with dependable services tailored to complex project requirements.

Through strong international partnerships, regional market understanding, and a solution-oriented approach, Enerix focuses on building long-term relationships based on trust, professionalism, and performance.

Key Strengths

- Engineering & Procurement Expertise
- Global Sourcing Network
- Strong Middle East Market Connections
- Reliable Technical Support
- Commitment to Quality & Safety
- Efficient Project Coordination
- Client-Focused Solutions
- Professional & Responsive Service
